

AREESHA BADAR

Full Stack Developer • React.js • Node.js • Next.js • Python & AI | BS Software Engineering
areeshabadar01@gmail.com | +92 348 4176946 | Lahore, Pakistan | [linkedin: Areesha Badar](#) | [Portfolio: areesha-badar](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building scalable web applications using **Next.js React.js, Node.js & Express js**. Skilled in developing responsive user interfaces, and managing application state using modern tools Next.js. Experienced in integrating backend services, optimizing performance, and deploying production-ready solutions. Alongside technical expertise brings strong leadership experience, managing cross-functional teams and executing large-scale initiatives. Combines problem-solving, teamwork, and execution skills to deliver impactful and user-focused solutions.

SKILLS

Languages: JavaScript, Python, Java, C/C++, HTML5.

Mobile Development: React Native, Expo, React Navigation, Native Components, Responsive Mobile UI, API Integration, Authentication.

Frontend: Next.js, React.js, Tailwind CSS, PrimeReact, TanStack Query, Material UI, Ant Design.

Backend: Express.js, REST APIs, FastAPI.

Databases: SQL, MySQL, MongoDB, Relational Database Concepts.

Core CS: Object-Oriented Programming (OOP), Data Structures & Algorithms, Software Design, Software Engineering Principles.

Tools & Cloud: Git, GitHub, Vercel.

Soft Skills: Strong Leadership, Communication, Teamwork, Team Coordination, Problem-Solving.

PROFESSIONAL EXPERIENCE

Software Development Intern Quantum Logics Limited

July 2026 – Present

- Developed and maintained **QuantumChat**, a full-stack real-time communication platform using React.js, Next.js, Express.js, and MongoDB.
- Built and integrated **real-time messaging functionality**, contributing to authentication, privacy, notifications, media sharing, and user management features.
- Integrated **Cloudinary for cloud-based media storage** and optimized frontend-backend workflows for reliable, scalable application performance.

KEY PROJECTS

QuantumChat – Real-Time Secure Communication Platform

Technology used: (React.js, Next.js, Express.js, MongoDB, Socket.IO, Cloudinary)

July 2026 – Present

- Built and maintained a **full-stack real-time messaging application** using React.js, Next.js, Express.js, MongoDB, and Socket.IO.
- Developed **REST APIs and real-time communication features** including messaging, reactions, stories, notifications, authentication, and privacy management.
- Implemented **end-to-end encrypted messaging** and integrated Cloudinary for cloud-based media storage and retrieval, contributing across both frontend and backend.

EDUCATION

Bachelor of Software Engineering

Feb 2025 – present

Comsats University Islamabad

CGPA : 3.94/4.0
